

# CRYPTOCURRENCY MARKET ANALYSIS REPORT

This report provides an analysis of the live data for the top 50 cryptocurrencies by market capitalization. Data was fetched using the CoinGecko API on November 22, 2024. The analysis focuses on key metrics, including market capitalization, average price, and 24-hour percentage changes.

## Key Findings:

- Top 5 cryptocurrencies by market capitalization
- Average Price
- 24-Hour Price Changes (Highest and lowest)

## Detailed Analysis:

The top 5 cryptocurrencies include BNB, WETH, XRP, Pepe, and LEO Token. These 5 crypto coins are high in market capitalization.

The average price keeps on changing as per the price values of the CoinGecko API.

24-Hour Price changes, accordingly, in most of the time the lowest 24-Hour price change is zero.

The analysis reveals that BNB tends to be the top 1 cryptocurrency. The report underscores the market trends, providing a foundation for future investment or monitoring decisions.
